

To our family of members:

For more than 70 years, Strait View Credit Union has been built on the idea of neighbors helping neighbors. Our roots in Clallam County run deep, and the strength of our credit union has always come from members like you. Your Board of Directors and leadership team are committed to ensuring that the credit union remains strong, sustainable, and able to serve our community well into the future.

After thoughtful consideration, the Board and credit union leadership team unanimously believes that partnering with Great NorthWest Federal Credit Union presents an exciting opportunity for our members. Both credit unions, founded on the same principles, share a deep commitment to our communities, member service, and cooperative values. By bringing our organizations together, we will build on the strengths of both credit unions—enhancing services, expanding resources, and creating long-term stability while preserving the member-first philosophy that defines Strait View Credit Union.

As a member-owner of Strait View Credit Union, your vote is an important part of this process. We encourage you to review the enclosed materials and participate in the vote. The credit union staff and Board strongly supports this partnership and believes it represents a positive and promising future for our credit union and the communities we proudly serve.

Sincerely,

*Strait View Board of Directors*
